OBJECTIVE

Information Technology graduate with strong interest in web development, automation, and modern programming languages. Skilled in building efficient applications, problem-solving, and collaborating in team environments. Seeking an opportunity to apply technical knowledge and innovative thinking in a dynamic professional setting.

SKILLS AND INTERESTS

Programming Languages: C++, Python, Java, SQL

Frontend Technologies: HTML5, CSS3, Bootstrap

Database: MySQL

Version Control: Git, GitHub

Core Concepts: OOP, Data Structures & Algorithms

Soft Skills: Problem-Solving, Time Management, Adaptability, Continuous Learning

EDUCATION

Bachelor of Engineering (B.E.) in Information Technology

Vidya Pratishthan's Kamal Nayan Bajaj Institute of Engineering and Technology

2021 – 2025 | CGPA: 8.71/10

INTERNSHIP

Full Stack Web Developer Intern | EY Global Delivery Services

Aug 2024 – Nov 2024

- Developed a **Voting Application** using full stack technologies, enhancing technical and project management skills.
- Worked on frontend and backend modules to improve performance and scalability.
- Gained exposure to professional development practices in a global corporate environment

CERTIFICATIONS

- C++ Training – Spoken Tutorial (April-2023)
- Java Training – Spoken Tutorial
- RDBMS – Spoken Tutorial
- Python Programming – Udemy (August-2023)
- AI Tools Workshop – be10X
- Google Cloud Computing Foundation & Gen AI – Google Cloud Study Jam
- Full Stack Application Development – PW Skills (September-2024)
- Introduction to Database and SQL – Great Learning Academy

PROJECTS

Virtual Try-On (Deep Learning & Computer Vision)

- Built a virtual try-on system using **CNN & image processing** to simulate how garments fit on users.
- Designed to enhance online shopping experiences by reducing return rates and increasing customer satisfaction.

Voting Application (Node.js, Express.js, MySQL)

- Developed a web-based voting platform enabling poll creation, management, and result visualization.
- Implemented secure backend with Node.js & Express.js and responsive frontend with HTML, CSS, and JavaScript.

Spotify Clone (Frontend – HTML, CSS, JavaScript)

- Created a **Spotify-inspired music player interface** with responsive design.
- Implemented features such as play/pause, navigation, and playlist UI to showcase frontend development skills.

Personal Portfolio Website

- Designed and deployed a personal portfolio website to showcase projects, skills, and career background.
- Highlighted web development and UI/UX design skills.
